

## IMPORTANT INFORMATION

### DUTY

Your product is going to a duty suspense warehouse. Please mark your product as “NIL COMMERCIAL VALUE”. We suggest you use carriers other than FedEx Express and DHL Express as they are unable to process the Ark Number and so duty will be charged if you use their services.

### BOTTLE / CAN / PET

**18 sample bottles are required;** labels showing the class number must be attached to 12 bottles or cans. If your cider is cloudy, you should attach the label to the upper or lower half of the class label. Please attach any labels to the back of the bottle avoiding the brand label.

**Pack 18 bottles in sturdy crates or cases** suitable for the long journey. Use plenty of packing to ensure there are no breakages in transit. Please avoid the use of packing granules, plastic ‘air’ pockets or scrunched up bubble wrap hold the load more firmly.

Please securely tape the correct class card to the relevant box with your unique cider mill entrant number to opposite ends of each parcel. If you are sending your entry in more than one package, please photocopy the class and cider mill entrant card. If you are sending multiple samples in one box please include the correct class card on each case and then the unique cider mill entrant number on the overall boxes.

### KEG

Please securely tape the correct class card and your unique cider mill entrant number on to each end of the keg, ensuring the same number is on both ends. **Please attach the peach card**, stating gas and extractor type and temperature for dispense.

If you are sending your own keg coupler or orifice plates for the dispense taps, ensure they are securely attached to the top of the keg.

If you do not wish to collect your keg, after the competitions, please tick the declaration on the peach label.

**Note.** Only competition organiser personnel are allowed to fit dispense equipment. No other persons will be admitted into the installation area.

### CASK

Please ensure that the casks are closed with only plain wood or white plastic closures. The cask must allow traditional belly stillage with dispense via a keystone tap. The organisers cannot accept 'upright' keg type containers dispensed using gas pressure.

Please securely tape the correct class card and your unique cider mill entrant number on to each end of the keg, ensuring the same number is on both ends. Please ensure the racking and best before dates are included on the cask.

## DESPATCH

Entries from the UK and overseas must arrive at MCBC Trade Team. The delivery window is from **Monday 4th October 2021 to Friday 29th October 2021**. You can deliver Monday – Friday from 8am – 4pm.

If your sample is unable to be delivered within the dates and time please let us know so that we can make other arrangements.
